AMENDMENT

Sir:

In response to the Official Action mailed June 20, 2001, Applicant submits the following amendments and remarks.

IN THE CLAIMS

CLEAN COPY OF AMENDED CLAIMS

1. (Amended) A tilter for adjustably mounting a device to a support mount, said tilter comprising:

a support block configured for pivotably engaging the support mount around a vertical first axis;

a shaft attached to said support block extending away from said support block along said vertical first axis, said shaft adapted for engagement with said support mount whereby said support block is pivotable around said vertical first axis;
